

Parco Fast Track Program

Need Production Parts in a Week?

When demand spikes or emergencies occur, is your seal supplier ready to respond? Parco understands that shutting down a production line due to a lack of seals is not an option. And sometimes our four-week lead times aren't short enough.

That's why we developed Fast Track. Through that program, we can provide you with production parts in as little as a week.

Three Simple Options

Parco's Fast Track Program offers three simple options to get you the production parts you need, in a hurry.

1. O-rings or Back-up Rings

Parco's extensive selection of molds can provide you with O-rings or contoured back-up rings within a week.

In a bind for parts? Parco's Fast Track Program will keep you up and running.

When it comes to delivering production parts in a hurry, Parco is uniquely positioned to respond. With in-house capabilities for tooling, mixing, and molding, Parco handles your order from start to finish. That means we can provide you with world-class quality in record time.

2. Complex Custom Shapes or Ground Parts

Parco's unmatched molding experience can provide you with complex custom shapes, including molded rubber packing elements and ground parts from molded slugs, within two weeks.

3. Rubber-to-metal Bonded Parts

Parco's in-house capabilities for making tooling and metal components can provide you with rubber-to-metal parts within two weeks.

Rely on Parco

Parco is a leading manufacturer of high-performance seals. We specialize in developing proprietary elastomeric compounds and bonding techniques. Parco's seals are available in 340 compounds, more than 25 percent developed in the last five years.

Founded in 1941, Parco was the first manufacturer to specialize in O-rings. Our modern 154,000 square-foot facility is one of the largest plants in the world making molded rubber seals. Parco also manufactures custom-molded elastomeric products, including

rubber-to-metal bonded parts. Our quality management system is certified to ISO/TS 16949:2002, AS7115, and AS9100B. Our R & D laboratory is certified to ISO/IEC 17025.

Parco products are available throughout the world from a network of knowledgeable distributors.

Parco Delivers Faster

For more information on our Fast Track Program, please contact a Parco customer service representative or one of our distributors. In most cases, Parco can provide production parts in one or two weeks.

Fast Track Program			
	1. O-rings or Back-up Rings	2. Complex Custom Shapes or Ground Parts	3. Rubber-to-metal Bonded Parts
Part sizes	All industry-standard sizes Non-standard sizes for which Parco has tooling	Inside diameter, 2 to 6 inches Outside diameter, 5 to 8-1/2 inches Length, 1/4 to 8 inches	Sizes for which Parco has tooling
Compounds ¹	Any Parco standard or special compound	Various	Various
Lead time, in weeks ²	1	2	2
Expediting fee ³	\$250	\$500	\$500

¹ Lead times shown above are for any Parco standard or special compound. Lead times may be longer for other compounds or for orders that require a material certification or outside processing.

² Lead times may be longer for parts for which Parco does not have tooling, parts using metal components supplied by Parco, or parts using metal components that are non-standard materials.

³ Expediting fee for each Fast Track order is amount shown above, or ten percent of the value of the parts, whichever is greater.
